## SKILLS

|                  |   |
|------------------|---|
| Languages        | JavaScript, TypeScript, Java, Go, SQL, Bash                                 |
| Web & Frameworks | React.js, Next.js, React Native, Expo, Node.js, Express.js, NestJS          |
| Databases        | MongoDB, MySQL, PostgreSQL, Firestore, SQLite, ClickHouse                   |
| DevOps & Tools   | Docker, Kubernetes, Git, Linux, Prometheus, Grafana, Retool, Android Studio |
| Key Skills       | REST APIs, SDK Integrations, CI/CD, Agile Development                       |

## EXPERIENCE

- Transak** Bengaluru, India  
*Developer Relations Engineer* Feb 2024 – Present
  - Orchestrated 50+ SDK integration samples across React, React Native, and Flutter, increasing developer onboarding by **100%**.
  - Launched the **Transak Playground**, enabling real-time testing of 40+ configurations with zero code required.
  - Revamped developer documentation, quickstart and API guides, reducing integration queries by **30%**.
  - Resolved critical SDK issues, cutting integration errors by **15%**; automated workflows using Retool, improving partner response time by **25%**.
- CubeAPM** Delhi, India (Remote)  
*Software Engineer* Jan 2023 – Jan 2024
  - Architected a reusable design system adopted across 3 frontend projects, doubling UI consistency and reducing bugs by **40%**.
  - Refactored 10K+ lines of legacy code and shipped 5+ scalable features in production.
  - Built backend APIs in Node.js and Go for real-time metric tracking, alerting, and logs collection.
  - Authored internal onboarding docs, reducing average developer ramp-up time by **40%**.
- Furlenco** Bengaluru, India (Remote)  
*Software Development Engineer Intern* Jun 2022 – Nov 2022
  - Automated inventory sync system, eliminating manual data entry and saving 10+ hours/week.
  - Refactored and optimized 70+ reusable components, reducing frontend render time by **25%**.
  - Deployed responsive dashboards for internal sales and logistics, improving visibility across 3 departments.

## PROJECTS

- DevBuzz** | *Next.js, TypeScript, Prisma, PostgreSQL, Tailwind, ShadCN UI*:
  - Engineered a developer community platform with OTP-based auth, live feeds, nested comments, and upvoting.
  - Implemented session-based auth using Prisma ORM, PostgreSQL, and secure HTTP-only cookies.
  - Integrated Redux Toolkit, Sonner for toast notifications, and Resend for email flows; deployed with CI/CD pipeline.
- PolkaSafe** | *React, TypeScript, Firebase, Polkadot, AWS*:
  - Developed a Web3 multisig dashboard on Polkadot for proposal creation, voting, and transaction finalization.
  - Integrated Polkadot.js and Firebase Auth for decentralized access management and user onboarding.
- CodeVider** | *React, JavaScript, Styled Components, Judge0 CE API*:
  - Designed a collaborative code editor with live test execution using Judge0 CE API and 4+ language support.
  - Facilitated users to write, debug, and share executable code snippets via a single-page React app.
- ShoppersEnd** | *React, Redux, Node.js, Express, JWT, MongoDB, Cloudinary*:
  - Engineered a full-stack e-commerce platform with 20+ categories, seller dashboards, and JWT-based authentication.
  - Integrated Cloudinary for media uploads and added seller-driven survey modules with MongoDB storage.

## EDUCATION

- Lakshmi Narain College of Technology, Bhopal** 2019 – 2023  
*Bachelor of Technology in Computer Science Engineering* CGPA: 8.61

## ACHIEVEMENTS

- Open Source Contributions:** Submitted PRs and code reviews to projects including **NativeWind**, **KubeBuilder**, and **Meshery**.
- Smart India Hackathon Finalist (2022):** Among top 5% of 10,000+ teams; delivered a real-time inventory management tool at national demo day.
- Solved 1000+ DSA problems; LeetCode (700+), Codeforces (Specialist), and CodeChef (4-star).
